

## **CONGRATULATIONS ON THE PURCHASE OF YOUR NEW PUPPY**

Enclosed is your new puppy's original Certificate of Registration & Pedigree (pedigree) which displays the following information: -

- Your details as the current Registered Owner of the puppy
- Puppy's registered name and registration number
- 3 generation pedigree
- Breeder's details

The ANKC Ltd National Database has been updated to indicate you are now the current owner of your puppy.

For your information, DOGS NSW Privacy Policy can be viewed via the following link:-

<https://dogsnsw.org.au/media/2291/privacy-policy-amended-may-2019-v2.pdf>

Should you dispose of the puppy in the future, you should sign the transfer document on the back of the pedigree and provide the new owner with the original pedigree certificate. This will enable the new owner to complete their details and sign the transfer document for lodging with DOGS NSW for a change of ownership to be recorded on the ANKC Ltd National Database.

You will also note on the pedigree that there is a 10-digit number assigned to your name (eg, 21000\*\*\*\*\*). If you are already a member of DOGS NSW, you will be aware that this is your membership number for all transactions in relation to this puppy. If you are not a member of DOGS NSW, the number assigned to you is a Non-Member number, ie, a non-financial membership, and should you have the need to discuss the status of your puppy's registration, you can contact the DOGS NSW Office and quote either the puppy's registration number or your Non-Member number.

If there are any other queries or concerns you may have regarding your new puppy, you should refer these back to the breeder.

If you wish to become a member of DOGS NSW to participate in the numerous fun and exciting activities that are available to members of DOGS NSW, you can join online via the following link:-
