Other Relevant Information:

The articles of Association states that the Board of Directors has: "the complete control and management of RNSWCC."

That control needs to be made by people who will vote according to their conscience, but also by people who 'care' - care about the members; the breeds; the clubs; the future of pedigree dogs and the 'hobby' we know to be a most vital, major part of our lives.

I am concerned at falling numbers of exhibitors, the number of shows, Government regulation/s, breed standards, disunity across State regulations/lack of uniformity across country.

I am running because I do care. The Board of Directors that gets elected to control depends on you and your vote.

Mr Jonathon Nash

Business experience:
Having an extensive career in law, company secretarial function and regulatory compliance, I am ready and able to sit on the Board of DOGS NSW; where I can deliver value through my technical and operational knowledge.

My recent position as Practice Manager of a well regarded law firm specialising in regulatory compliance of the credit sector, has afforded me the opportunity to work with many not-for-profit organisations. In many cases I have had to work alongside the relevant government agencies affording me not only successful outcomes, but a thorough understanding of government processes; this experience I believe will translate easily to the functioning of the Board.

Prior legal and company secretarial / compliance roles stand me in good stead for the Board, not only from an operational perspective, but highlights my ability as a liaison between stakeholders, whether governmental or corporate.

My professional experience and education allows me to contribute to the Board of DOGS NSW and assist it in achieving its mission and goals.
